A-PDF EPUB to Flipbook Manual

This manual is to tell users how to use **A-PDF EPUB to Flipbook** to create page-flipping eBook based on **EPUB** format files with ease.

The manual contains below chapters:

NOTE: This is the manual for version **1.0.0** of A-PDF EPUB to Flipbook. This version is the newest. In future we will add more functions and fix program bugs in order to provide the best UE (user experience) to users.

Overview:

A-PDF EPUB to Flipbook has a very simple home interface enables users add easily EPUB file and then check the checkbox: "Convert to Flash Flipbook" or "Convert to PDF". In another word, it enables users convert EPUB file to flash flipbook or PDF file. If check the first, people could enter the flash flipbook editing interface to edit flipbook which will be **viewed online, sent by email and even burnt by CD**. If check the second, it directly convert the EPUB file to PDF file. Flash flipbook editing interface lets people control the output flipbook size, colors, background, and more without any programming work! Also people can use a great deal of built-in templates to avoid designing workload, even add security passwords to define who can view their created flipbook online.

System Requirement: Windows NT4/2000/XP/Vista/7; Flash Player.

Features:

I. About Product:

- Convert EPUB file directly to PDF file.
- Convert EPUB file to flash flipbook file.
- Output in 5 different forms: HTML, EXE, Zip, Burn to CD and PDF.
- HTML allows users to upload to a website to be viewed online.
- EXE and Zip allow users to send to readers by email to be viewed on their computer.
- Burn to CD allows users to send the physical media for viewing on their computer to readers.
- Provide multiple templates (default provided or download from website).
- Define user's language for flash.
- Rearrange Image order manually or sort by Name, File size, Image size, Create time.
- Process Image inside the program: resize, flip, rotate, crop, contrast, brightness, sharp, Image effects, de-skew, convert to gray/black-white.
- Preview the output effect instantly.
- Edit photo album size, allowing landscape pages.
- Add and edit bookmark.
- Define photo album titles, keywords and other metadata etc.
- Define titles, icons, window size for EXE page-flipping digital album.
- Define book margin size manually.
- Insert background music, always play or define times.
- Add password to protect their page flipping book.
- Set background color and Image.
- Set book reading from right to left (such as Arabic).
- Choose hard cover for EPUB flipbooks.
- Set page-flipping time manually.
- Customize toolbar buttons to set permissions for downloading, printing, sharing and more.
- Set colors for toolbar, album cover, page shadows, bookmarks and more.

- Define open flipbook with bookmark panel shown in left or right side.
- Set open window for link pages.
- Set scale for zoom-in function.
- Set control bars to "show" or "hide" in full screen.
- Export and save settings for future uses.

II. About FLASH Flipbook:

With the flash flipbook users have created, their user will be able to:

- Drag the corner to flip a page.
- Click page shadows to flip a page.
- Input login password to view EPUB flipbook content.
- Auto-view flipbook repeatedly.
- Auto-flip EPUB flipbooks after loading.
- View photo thumbnails.
- Use button to control page, such as Previous, Next, First, Last etc.
- Flip pages automatically.
- View page-flipping EPUB flipbook full screen.
- Search whole EPUB flipbook.
- Print out the whole album or a range of pages directly.
- Download the uploaded page-flipping EPUB flipbook from web site directly.
- Double-click to zoom in or zoom out.
- Zoom in/ out both pages.
- Share EPUB flipbook url via email.
- Open or close page-turning sound.
- View EPUB flipbook with pre-loading needed pages to open quickly. Do not need to wait all pages loaded.
- Open to a certain page in Browser by adding a suffix like this: index.html?pageIndex=4.

Quick Start:

1. Click button "Browse" to add an EPUB format file;

2. Check the checkbox: "Convert to flash flipbook" or "Convert to PDF" and then click button "convert";

3. If check the first, after the new flash flipbook editing interface comes up, Click icon to set Page size and Page quality for added EPUB file and then publish it by clicking button ;

4. Define parameters for EPUB flipbook, such as Book, Tool Bar, Bookmarks, and then click the "Apply Change" icon ;

5. Click "Convert to Flipping Book" icon to enter into Output interface;

6. Choose Output Type from HTML, ZIP and EXE, here take as example;
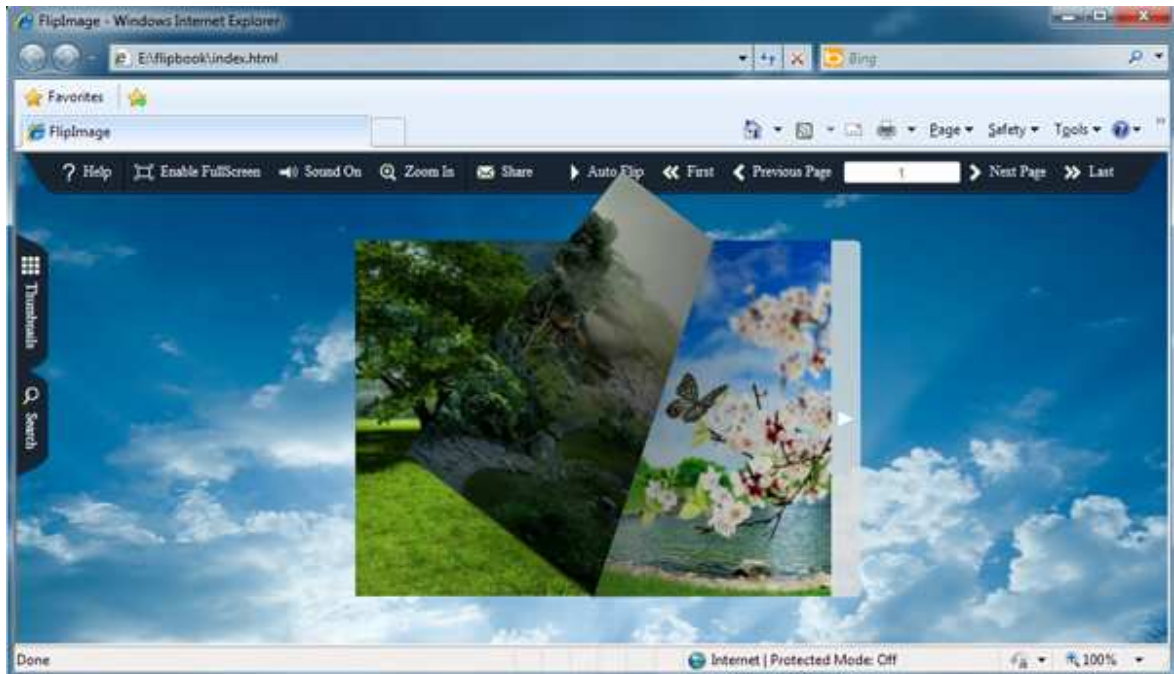

7. Click to set Output Folder as "D:\EPUBflipbook", input File Name such as "index";

8. At last, click icon to output created page-flipping EPUB flipbook.

Users can open the **"flipbooks"** folder in **"E:\"**, there are three files in this folder:

Open **"index.html"** to view the created page-flipping album via Web Browser, such as Internet Explorer, Google Chrome, Firefox, etc.

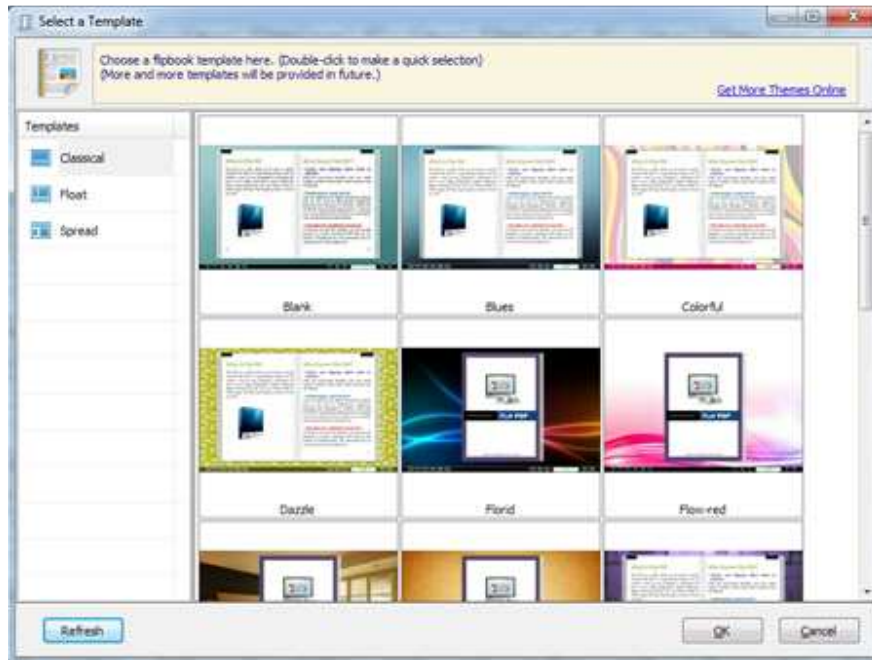

Interfaces:

Template Settings Interface:

The new V1.0.0 provides three different templates: Classical, Float and Spread.

Each template contains some unique settings, the below instructions will show users details:

1. Choose Template:

Click icon to select templates from below interface:

 Click this icon is to save current settings as a TXT file for later uses;

Click this icon is to import stored setting file at once.
2. Book Panel:

## (1) Book Title (only can be set in Float Template):

Customize book title for showing on the top of the flipbook.

(2) Hide Book Frame Bar:

If don't want to show the book frame bar, choose "Yes" in this option.

(3) Retain the book to center:

If select "No" in this option, the EPUB flipbook will be shown on the right-side.

This setting is for embedding special background image, such as advertisement or company log.

(4) Book Proportions:

Please note that the values are not fixed in pixels or inches, they just represent a ratio for "Page Width: Page Height", and the book size will be changed depend on their Explorer Window Size.

(5) Book Margin:

A. Book Margin (set in Classical Template):

"Book Margin" refers to the distance between the book and the toolbar.

B. Top/ Bottom/ Left/ Right Margin (set in Float/ Spread Template):
(6) Flash Window Color:

This color will be applied on all flash windows, such as the book window, "Help" window, "Print" window and so on.

(7) Page Background Color:

When load pages, or if the page number of the image file is odd, then the page (the last page) will show with the "Page Background Color".
(8) Page Shadow:

The value also takes the value of Book Proportions as reference, and the value interval of "Page Shadow Opacity" is "0~1", the larger value refers to the deeper shadow color.
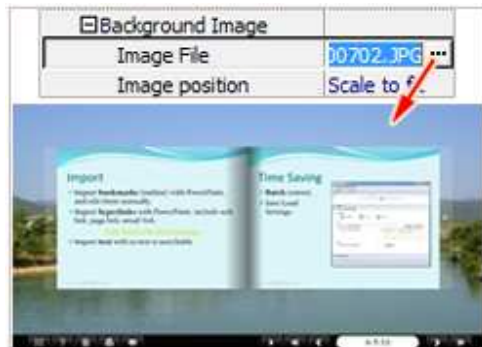

(9) Background Config:

A. Background Color:

Define background for flipbook with gradient color or pure color (the same color for "Gradient Color A" and "Gradient Color B"). Gradient Angle is the angle between the two colors.

B. Background Image (set in Classical and Spread templates):

Click the icon " " to choose background image from locate computer, and there are 11 kinds of "Image Position" to choose: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

C. Background Image (set in Float template):
The Float template enables users to add two background images: Outer Image and Inner Image. Users can make Inner background image to show special information, such as advertisement or company logo, etc.

There are also 11 kinds of "Image Position" for users to choose: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

(10) Right to Left:

If the language of the file is read from right to left (such as Arabic), then choose "Yes" in "Right to Left" option:

(11) Hard Cover:

If users want create hard cover effect (a book bound with rigid protective covers) for their flipbook, choose "Yes" in "Hard Cover" option:

(12) Flipping time:

 Sets page flipping time in seconds according to needs. (Recommended second value is 0.6)

3. Sound Panel:

If users want to add background sound to their flipbook, such as a song or other audio file, set "Enable Sound_>Enable", then click "..." icon to choose "Sound File" from their computer, then set "Sound Loops", "-1" stands for playing the sound file all the time while viewing flipbook, other value (N>0) stands for the times of playing the sound file.

4. Tool Bar:

(1) Tool bar (only in Classical Template):

 Show or Hide Tool bar in created flipbook.

(2) Zoom Config:

To enable Zoon In functionality, choose "Yes" in "Zoon in enable", users can set "Zoom Scale" in **Classical Template**, the value is the times between zoomed page size and the current page size.

(3) Print Enable:

Print Enable	Yes

Choose "Yes" in "Print Enable", then click icon to set print page range as below:

(4) Search Button:

Search Button	Show
Search Highlight Color	▢ 0xffff00

Select "Show" in "Search Button" (make sure users have check "Enable Search" option in "Import image" interface), then define "Search Highlight Color", after clicking "Search" icon , users will see a popup box to input search images, then click Enter or "Search" button, users will get the below searching result:
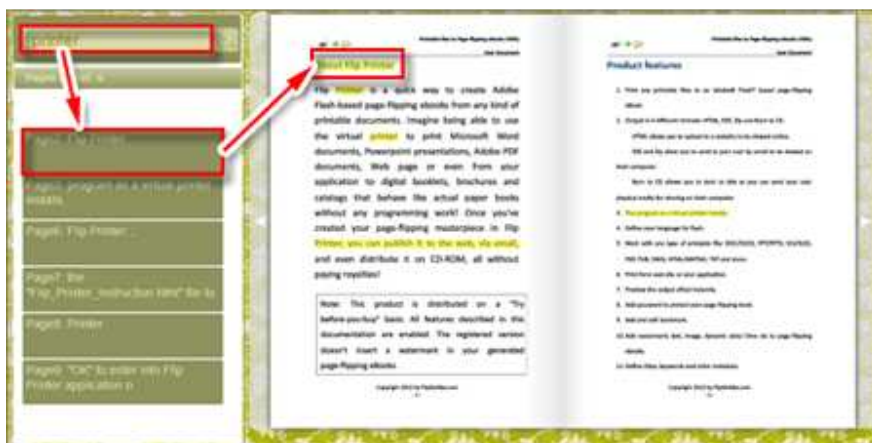

(5) Download setting:

If users want their flipbook readers to download the image file or the flipbook directly from their website, select "Yes" in "Download Enable" option, then input the Download URL directly, users can use absolute path like "http://www.flipbuilder.com/flip_image/example/files/download/FlipIMAGEDemo.jpg" or relative path like "/files/download/myIMAGE.jpg" (make sure users have upload the image to the same path).

Then readers can click the icon to download their uploaded image file or some other swf file directly.

(6) Full Screen:

To enable "Full Screen" functionality in output flipbook, select "Show" in "Full Screen Button" option:

Then users can click icon to view flipbook in Full Screen, click icon or "Esc" button to exit from the Full Screen.

Or if users want to show their flipbook without Tool Bar while showing in Full Screen mode, users can set "Yes" in "Full Screen Without Tool Bar":

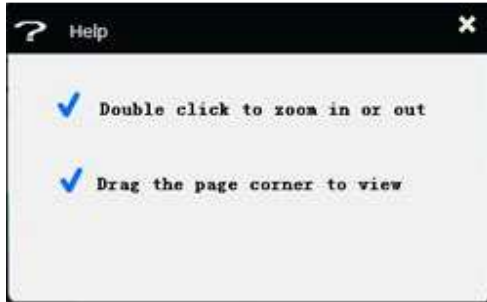

(7) Help Button:

To show tips about viewing flipbook, users can set "Show" in "Help Button" option:

Then users can see the button and click to get the tips as below:

(8) Share Button:

If users want their flipbook viewers to send the link to their friends or clients, users can add a share button in their flipbook for readers to send out their flipbook link immediately:

When the viewers click the share button , they will enter into the Email interface with the link of their flipbook in the Email body.

(9) Auto Flip:

To auto flip the EPUB flipbook, users can set "Yes" in "Auto Flip->Enable" option, then define the Flip Interval (seconds of staying on each page);

The value of "Play Count" stands for the times of auto playing the EPUB flipbook, and "-1" stands for playing forever (after clicking the Auto Flip button , the flipbooks will be flipped by staying 3 seconds per page);

If users want to auto start and flip the eBook after opening, just set "Auto flip when start up->Yes":

After clicking the Auto Flip button , the flipbooks will be flipped by staying 3 seconds per page.
5. Initial Show (set in Float/ Spread Template):

Users can show Bookmark panel or Thumbnails panel on the flash page at the beginning, just select "Bookmark" or "Thumbnails" in this option:

For Example, select "Thumbnails":
Then users will get flipbook shown with below initial interface:

6. Bookmark Panel:
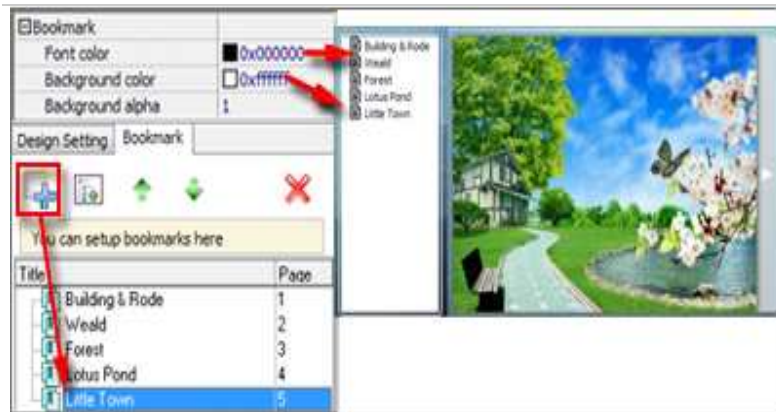

In "Design Setting" panel(only in **Classical Template**, in other templates, the colors will be adjusted automatically based on their defined flash window color), users can set "Font color", "Background color", "Background alpha" (refers to the background opacity, value interval: 0~1, "0" stands for the background is totally transparent), "Always Show Bookmark->True/ False" and

"Panel Position->Left/ Right".

In "Bookmark" panel, if users didn't check "Import bookmark" option in "Import image" interface, or they want to create new bookmarks for their flipbook, they can add bookmarks even sub-bookmarks here, click "Add" icons and then input "Title" and "Page".

When click the bookmark button , it will popup the bookmark panel immediately, and click on those bookmarks, it will jump to the defined page automatically.
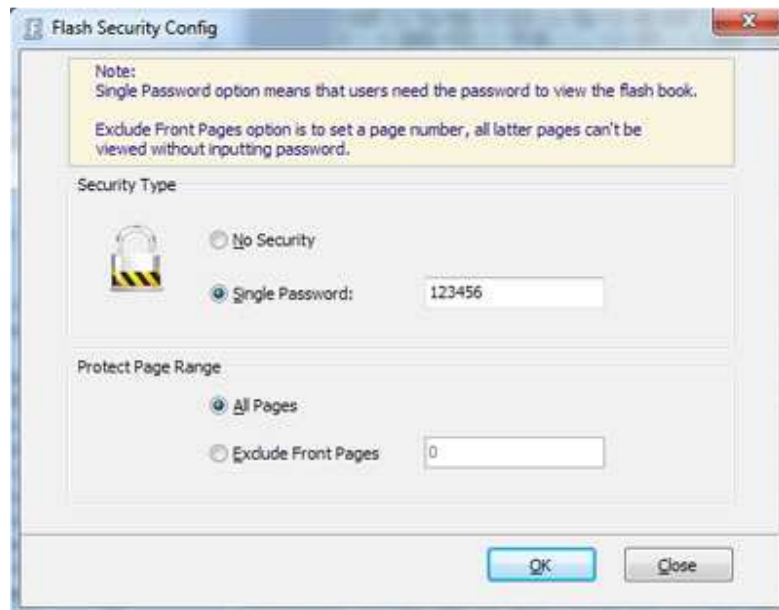

7. Language:

Users can set language for showing tools or tips in their created flipbook, and here is the specialized instruction page for setting the "Language Option".

8. Security Settings:

If users want to protect their flash books with password, users can click "…" icon to enter into "Flash Security Config" interface:

Select "Security Type->Single Password", and input password into the box (there is no restriction on password format at present). Users can also set "Protect Page Range" as "All Pages" or the latter pages after a defined page number. (Tips: The program utilize RC4 algorithm to protect EPUB flipbook pages, the EPUB flipbook content pages will show nothing without permission.)

9. Import Themes:
If users builds their own Theme (*.thm) file, they can import and apply into page-flipping EPUB flipbook. Just click the "Import Themes" button, then enter into Theme choose interface, open the Theme they want to use, then it will pop up the message: "Import finished! Please view the themes in the templates/ themes selection window."

Then check the added Theme in the template choose interface to apply it.

At last, click "Apply Change" icon **to apply the settings** (Users won't preview the applied effect before clicking this icon).

License Agreements:

All copyrights to Flip Image (the Software) are exclusively owned by FlipBuilder.com. For more information, visit our website at www.Flipbuilder.com.

Anyone may use this software but all the page-flipping EPUBs generated will automatically have a demo watermark on the first page of them. To remove the limitation users must register.

Once registered, the user is granted a non-exclusive license to use the Software on one computer (i.e. a single CPU) at a time. The registered Software may not be rented or leased, but may be permanently transferred, if the person receiving it agrees to terms of this license.

The Software unregistered (trial) version may be freely distributed, provided the distribution package is not modified. No person or company may charge a fee for the distribution of the Software without written permission from the copyright holder.

THE SOFTWARE IS DISTRIBUTED "AS IS". NO WARRANTY OF ANY KIND IS EXPRESSED OR IMPLIED. USERS USE AT THEIR OWN RISK. THE AUTHOR WILL NOT BE LIABLE FOR DATA LOSS, DAMAGES, AND LOSS OF PROFITS OR ANY OTHER KIND OF LOSS WHILE USING OR MISUSING THIS SOFTWARE.

Users may not use, copy, emulate, clone, rent, lease, sell, modify, decompile, disassemble, otherwise reverse engineer, or transfer the licensed Software, or

any subset of the licensed Software, except as provided for in this agreement. Any such unauthorised use shall result in immediate and automatic termination of this license and may result in criminal and/or civil prosecution.

All rights not expressly granted here are reserved by FlipBuilder.com.

Installing and using the Software signifies acceptance of these terms and conditions of the license.

If users do not agree with the terms of this license, they must remove the Software files from their storage devices and cease to use the product.

Support:

Users can easily get registration code back, search or browse our frequently asked questions, and learn tutorials about products. If people do not get a satisfying solution, they could contact support team for help.

1. Frequently Asked Questions

Users can find answers to questions about technique issues here:

http://www.boxoft.com/support/list-Boxoft-Photo-Flipbook-Builder

2. Get lost license code

Users can pull up a copy of their order by entering their email address. After they find the order, they may view its status, view details of the order (including the license key), and obtain the invoice.

4. Contact Us

If users have other questions or requirements, contact us directly through our support Email: elevenasus@gmail.com, we will respond ASAP.

Note: This product is distributed on a **"Try before-users-buy"** basis. All features described in this documentation are enabled. The registered version doesn't insert a watermark in the generated page-flipping photo album.
