> **Note: This product is distributed on a 'try-before-you-buy' basis. All features described in this documentation are enabled. The unregistered version will output flashes with adding watermarks.**

About A-PDF to Flash Converter

How to publish your PDF magazine or newsletter online for people to read anywhere without PDF Reader installed? Use A-PDF to Flash Converter to digitalize your PDF file now!

As we all known, Flash content may be displayed on various computer systems and devices, using Adobe Flash Player, which is available free of charge for common web browsers, some mobile phones and a few other electronic devices.

Once converted to flash, anyone can easily view a PDF document using a web browser as more than 98% of all browsers have the Adobe flash plug-in already installed. So, you are not required to install any special software or tell your audience to do the same.

A-PDF to Flash Converter is powerful and lightning-fast converter software to convert PDF files to animated digital Flash pages. You can easy handle the converter tool and complete conversion within minutes, you can also design unique background and sound for your Flash at the same time. The output Flash can be stored in HTML, ZIP or EXE format, which you can distribute online or offline as you want.

With using A-PDF to Flash Converter, you can become a Flash Pro even without reading manual file. Just add PDF file, choose template, embed background sound, and then click "Convert to Flash Book" to output the pages into animated Flash file at last.

You can upload the created HTML Flash file online, and let your website visitors to view your PDF documents in a popular and professional way. Or send the integrated EXE or ZIP file to someone else to let them enjoy your animated flash file.

Detail features include:

- Convert PDF file to Flash publication in minutes.

- Import all pages or a range of pages only.

- Set quality level for pages.

- Import PDF text content together to allow search in created Flash file.
